

**TEBEY TO RELEASE NEW SINGLE
'HAPPENED ON A SATURDAY NIGHT'
JUNE 12TH**

LONDON UK (12th June) – Canadian Country star Tebeey is set to hit the UK airwaves again with a bang, with the release of his new single 'Happened On A Saturday Night'. The song is about the epic moments, connections, parties, life events and new love that can unfold when the work week is done. This usually 'Happens on a Saturday Night' of course! This ultra-catchy song is a modern blend of country and pop – it's the perfect tune to have us all reminiscing about our most memorable summer nights.

"Happened on a Saturday Night" is another step up in the evolution of Tebeey's music - an artist who always strives to make each release just a little bit stronger, on the cutting edge of what's happening in the format with superior vocals and production. Tebeey announced the song with his Instagram audience, who all say it's an undeniable smash! This song has a beautiful verse and a hard-hitting chorus! An official video will be coming in July.

Tebeey (pronounced TĀY-bāy), as well as being one of the Canadian country stars of the moment, has written hit songs for a host of other cross genre artists, from One Direction, Cher, Pixie Lott ("All About Tonight" nominated for a Brit Award for Single of the Year), Fifth Harmony, and FLO RIDA to fellow country artists Justin Moore, Big & Rich, and many others.

Residing in Nashville for over a decade, the singer, songwriter and producer has in particular enjoyed a stellar two year run since 2018 with three #1 songs as a writer: a US #1 with Justin Moore's "Somebody Else Will"; a Canadian #1 with Gord Bamford's "Dive Bar" and his first #1 as an artist and writer with his own single "Who's Gonna Love You".

In 2019, Tebey performed his first international tour dates with shows in Berlin, Cologne and the UK, where he was part of the prestigious Country Music Week. This year he performed to great acclaim at C2C Berlin and was set to perform at C2C UK before the inevitable cancellation.

His first UK single "Denim on Denim" set the ball rolling in the UK earlier in the year and the song is now Tebey's top streaming track with over 9 million streams to date, with a career total of over 40 million audio and video streams combined.
